

Introducing the

# EEMonitor

A pre-payment energy monitor from  
Nottingham City Council

**A smart and adaptable multi-functional device designed for landlords and residents.**

**The monitor offers two way mobile communication via the GSM network, making it easy to retrofit and simple to install. Ethernet solutions are also available to suit new builds and low signal areas.**

## **Enhanced EEMonitor features include:**

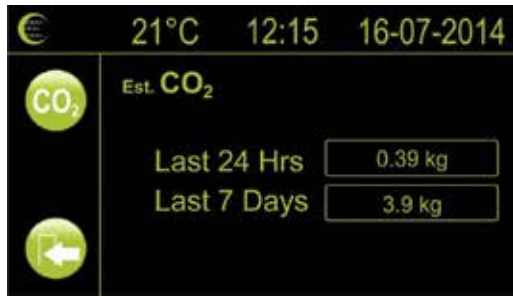

- a large colour touch screen that provides enhanced visual display

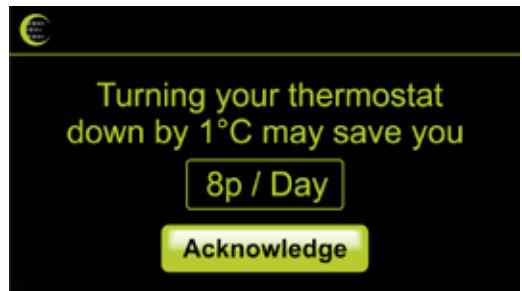

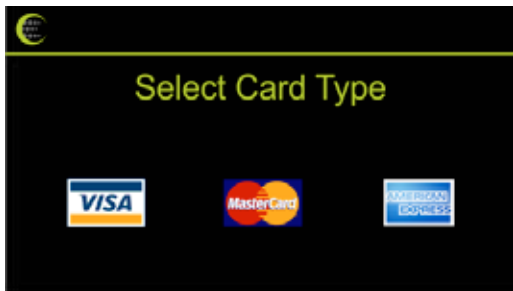

- an inbuilt instructional video guide incorporated as standard on each device
- multiple pay-as-you-go or standing order payment options including topping up by card through the monitor

- easy to navigate, informative updates and useful alerts to help manage energy usage
- remote disconnection, and tariff and standing charge adjustments
- adjustable 'emergency credit' levels
- variable debt recovery options
- a dedicated UK call centre to handle all customer enquiries
- remote meter reading and energy consumption monitoring

- secure landlord access to individual data reports
- alerts to track anomalous usage
- extendable warranty options
- the ability to integrate with most heat meters with pulsed or M-Bus outputs
- designed and manufactured in the UK.

# Top up anytime 24/7

- On-line @ [www.eemonitor.co.uk](http://www.eemonitor.co.uk)
- On the **device itself**: just select the 'top-up using card' option
- At any **PayPoint** outlet
- **UK call centre**: 0115 955 66 77

Our skilled engineers work quickly and efficiently to install in new builds. We are also accustomed to taking care of all access arrangements and installing in occupied properties where retrofits are required.

**'if you would like to see a fully functioning eemonitor or trial an eemonitor at commercial premises under no obligation, please call us on: 0115 876 1778 or 07879 622 427 or email: [info @eemonitor.co.uk](mailto:info@eemonitor.co.uk)**
